SEATADVISOR PRODUCT: SABO ARTS

SABO Arts

The Crossing Theatre will use SABO - a powerful & feature rich web based ticketing system to manage all aspects of their venue from the box office to the marketing department.

The Crossing Theatre is a multi-purpose venue set on the banks of the picturesque Namoi River. The Theatre will use The SABO integrated ticketing, fundraising, and customer relationship management (CRM) & access control solution.

"We have researched available ticketing and database systems for the past year, and SABO's web-based easy to use system is the one that meets our needs," said Mike Stevens, Theatre Manager of The Crossing Theatre. "We are in the very beginning stages of a marketing campaign, and SABO's seamless view of our customers and clients, coupled with the management tools that we can now place in the hands of the many organisations that call The Crossing Theatre home, convinced us that now was the time to make the jump".

Using SABO's integrated, single database solution, The Crossing Theatre will have access to ticketing, fundraising, marketing tools, crm and access control functionality allowing all departments manage their operation from one live real time system.

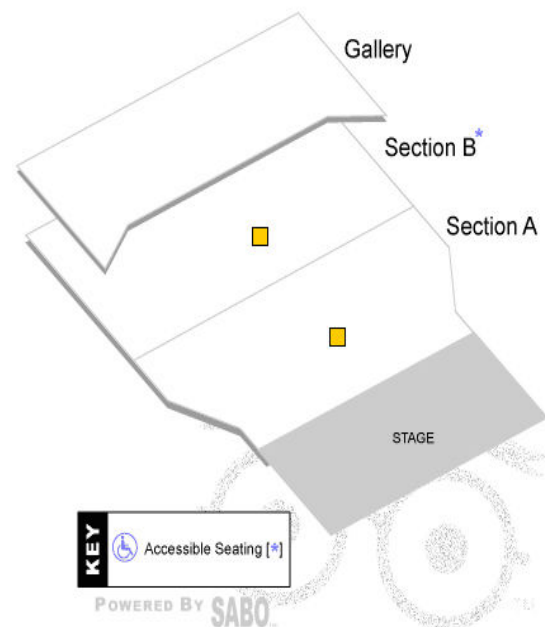

While the venue has a core focus on ticketing they make extensive use of all the ancillary facilities at the venue to provide a richer customer experience.

The SABO system provides the data management and analysis tools necessary to improve relationships with existing customers, and marketing tools to attract new ones.
